| Product description | <p>What's Happened?</p> <p>As part of our ongoing quality checks we have found that the above 'Travels' Worldwide iPod &amp; MP3 Charger does not meet our high quality expectations.</p> <p>The charger is supplied with three plug pin attachments. It is possible to plug in these attachments directly to the electrical mains supply without the charger fitted. When plugged in, these plug attachments can potentially allow access to hazardous voltages. As there is a risk of electrocution, we have decided to recall this model.</p> <p>We are pleased to say that no one has been hurt.</p> |
